# *New at Fair This Year!*

## **RENQUEST!**

New at the Renaissance Pleasure Faire, RenQuest, a bold and unique interactive game, set in real time, with professional performers and a 'real, fantasy world'. Calling all adventurers, travelers and gamers, Live the Legend, Be Your Own Hero, play RenQuest.

Accept your challenge, let your heart choose your Faction and proceed on a journey that leads from the cozy lakeside encampment of RenQuest, and threads its way throughout the unique and surprising fabric of the Faire. Encounter an abundance of profound and absurd riddles, spells, clues, hunts and challenges along the way, aided always, by a band of flamboyant gypsies who involve much of the village as the plot unfolds. An Adventurer completes tasks, collects points and rewards and soars up from Level One to Level Five, ultimately arriving at the final challenge, to defeat and capture the heart of the mighty and mythic dragon, Bloodtharken. Do you accept your Destiny? Play RenQuest!

## **WORKSHOPS & LECTURES**

Also available this season, the Faire extends an invitation for visitors to attend special Workshops and Lectures, relating to various aspects of Faire life. A wide array of opportunities exist from a free lecture on essential and helpful costuming tips, to a stern talk from a Knight of the Royal Joust regarding the role and conduct of a man of honor some five-hundred year ago. Workshops, ranging in cost from a mere \$3 to \$22, will immerse the participant in a hands-on demonstration guided by experts in the field of Paper Casting, Lacework, Basketry and the like. Start and complete a project and make a memory you can take home with you!
